METHOD

Granite Sweater is top-down seamless raglan in an easy care yarn with a simple texture. Created for our 2nd child, I wanted a quick knit with a touch of texture to layer easily for him. Granite was my very first sweater design. This newer version is updated for my 5th child. The updated version has better fit on the neck and sleeves based on what I have learned in designing over a dozen sweaters. The same great aesthetic of the original but with an awesome fit. This baby size version extends the sizing to the youngest members of the family.

Abbreviations can be found on the last page.

Note: choose size based on bust measurement for best fit
